SILVERCLOUD® TAG

PERSONAL LIVE GPS TRACKING SYSTEM

The SilverCloud® Tag Personal Live GPS Tracker is a portable, pocket-sized, real-time GPS tracking system that can be used for a variety of tracking applications. It's ultra-compact size allows it to be placed virtually anywhere.

The powerful internal GPS module provides accurate live location updates, which can be viewed from an internet-enabled computer, laptop or mobile device.

MONTHLY DATA SUBSCRIPTION PLAN
REQUIRED FOR LIVE TRACKING

SILVERCLOUD® TAG FEATURES

- ultra-compact design makes it ideal for various personal tracking applications
- fast and user-friendly web-based mapping application with 2D and 3D mapping
- highly accurate GPS pinpoints the location to within 2.5 meters (6 feet) of the device
- unlimited storage of driving history on our secure server with historical playback
- location update intervals as fast as every 30 seconds (based on data plan)
- SilverCloud® alerts indicates speeding, low-battery, arrival & departure notifications via email or text messages (SMS)
- geo-zone alerts allows users to send email and/or text message (SMS) notifications whenever a vehicle enters or exits a virtual boundary or geo-zone
- unlimited printable driving reports indicates speed, mileage, address locations & stops
- patent-pending ShareSpot® feature gives users the ability to share their live GPS location via URL or embedded code
